

Mrs. Amy Lally's professional experience includes creating and implementing an educational program for mathematically-talented students at a prestigious independent school, and teaching math to the students of St. Angela Merici in grades 5-8. Mrs. Lally's educational background includes earning an undergraduate degree in Elementary Education (K-8), minor in Mathematics from Baldwin-Wallace College, and a Mathematic Specialist graduate degree from Kent State University. Her educational specialties include technology integration, current best practices in mathematics education, and constructivism.

Mrs. Lally and her husband, Tom, are very busy running from football field to soccer field cheering on their five children. In their spare time, they love to travel, read books, swim, and take long bike rides in the Metroparks.
